GM INFORMATION: ASOV

Asov lies at the edge of the Jagged Peaks and is the first settlement of note south of Hellfrost Pass. It is also a town entering its twilight years.

The city has far exceeded its capacity to house refugees. Hundreds of desperate souls live in shacks and tents, and what little food they do have is sold at a high price. The surrounding countryside, the area around the city, is a wasteland. The area is a no-man's-land. The city gates are closed at night, and the city is patrolled by the perimeter around the city. The city is a place of death and despair. The city is a place of death and despair.

A DANGEROUS ROAD

During the journey, the heroes have three encounters. These occur in the order they are presented below. The first occurs in the afternoon, the second in early evening, and the third in the morning on the second day of travel.

- Ambush
- The Deserted Tower
- A Dead Rider

THE DESERTED TOWER

IMAGINE THE JUNKER

The tower has just two rooms, one on each floor.

Downstairs: The room is a total mess. Snow has blown in through the open door, firewood lies scattered over the floor, and the crates of provisions left here by the Roadwardens are smashed, their contents gone. A successful Notice roll reveals faint traces of blood on the floor around the fire and on the staircase. With a raise, the hero notices tiny paw prints in the blood. Identifying the tracks requires a Tracking roll. With success, the hero deduces they were made by rats.

Any hero making a successful Common Knowledge roll can deduce the fire was in the process of being stacked when whatever fate befell the tower occurred.

Upstairs: The upstairs chamber is a scene of carnage. Four skeletons lie on the bare stone floor, which is covered in

Crushes, Crushes Everywhere. The movie "Alexander" was really bad but this expansion pack came for free with the game. I don't think I ever actually played it, but it may have somehow been folded into the regular game experience.. First impressions:

I am not recommending it because of the price. Even at this low price I don't think it's good value. But if you don't care about that you might like to give it a try for a laugh (a BIT of a laugh lol). Update: I tried playing through a bit more, I just found it hard to keep going. To be honest it is a pretty bland game. I quit when I got up to a bit were you have to jump between 2 enemies and it was impossible to avoid taking damage. I died and it was my last life after countless deaths trying to complete the same level...

Surprisingly to actually move your character and stuff it feels okay, it's fluid your character doesn't doesn't become static when you attack and that sort of thing. On first booting up the I found games sound track and short story explanation amusing. It's actually a hard to avoid some enemy projectiles because of the their unpredictability and lack of fine control over your character. I found a good tactic is to just spam your weapon before enemy even scroll onto the screen. But that's a pretty lame way to play and the weapon noise would annoying. Truthfully I only played for 10 minutes or so, so far. But I've completed the first of 5 worlds in what felt like 5 minutes. At that rate it would take only 25 minutes to complete this game. Even at this low price it may not be good value for money. Also the music became pretty repetitive and it seemed to only be a short loop. Obviously that can become annoying. And lastly the weapon that you unlocked after the boss fight was only different from the first weapon in that it fired a different coloured projectile. That was kind of lame lol. **OMG THAT WAS VERY NICE!**

Is there any other thing ?

Is that all the story ?

But it worth it.

6V10. Very Nice RPG game i feel revived and want to play more RPG games cus of this!. One of the best games of all time!

I'm so glad to have this game again even though it's not in my mother tongue. Nevermind. I'm glad as f**k to be able to play it again on a windows 10 pc.

I used to play so uncountable many hours when I was about 11 years old and I NEVER got bored of the game.

Unfortunately I couldn't simply play it without any troubles so I had to figure out some solutions but none did really work. So I have to play it the oldschool way: in a 4:3 solution because the 16:9 still won't work. -.-

Such a good game from back in the days... I simply love it. Forever! <3. Good. Classic. Simple. Best case senario for a \$3 TD game.. I FINALLY SAVED CHRISTMAS

This game actually made me like Christmas, best shumup ever and is actually beatable. This scenery is not working at all. The DLC is in the DLC's folder with 5 aiports like a bunch of other scenaries but FSX Steam is not loading them at all.

I would appreciate any help.

Be ware if you buy this game,,, archivements dont work and we are not getting a fix or update for the problem and havnt heard anything from the developer for weeks. Did you hear about the new blonde paint?

It's not real bright, but its cheap, and spreads easy.. Its ok for the price just dont poke my right eye out ok?. Low System Requirement :D. Its a really fun game to play with friends. I bought a dozen Meerkats and they all died of Tuberculosis. Screw this game.. If you like destroying Lego bricks then get this game it's super fun. Trust me =D. its easy to sea that this game is porly mate. and they only made it to get a quick \$\$\$ here are resons why i dont like the game.

1. crops take forever to grow and nothing to do while you wait.
2. when theres winter ther isnt any snow around the houses just sand or grass.
- 3.its not worth 5\$. it doesnt work. not impressed.
